

GELATOS  
GELATOS

## Vanillas

*Our vanillas are made from a proprietary cold pressing method which preserves each and every one of the 250 plus vanilla notes found in each bean. Gelato made with Tahitian vanilla can be described as aromatic and floral. Its essence is derived from the vanilla plant indigenous only to the island of Tahiti, and it is the rarest vanilla orchid in the world. Its delicate, rich floral and fruit-like flavor notes transcend ordinary vanillas because each bean is allowed to ripen below the orchid flower before being hand picked*

# Chocolates

*Our chocolates have been carefully selected from all over the world and are certified pure. We start with Dutch processed cocoa and blend in couverture chocolate from Switzerland, Venezuela and Belgium. We achieve hairline streaks of couverture chocolate by melting the bars and stringing it in right before freezing. The cocoa beans consist of premium, noble varieties and the cocoa butter is pure, prime quality from the first pressing and guaranteed to contain no additional vegetable fat. Our white chocolates are made from pure cocoa butter and cocoa butter cream*
